WILL LASH has resigned his place as bill clerk on the Kate Adams, Will Darragh go-ing out in his place yesterday. THERE was no impediment to navigation

at Pittsburg, though ice was running light night before last. Weather was very cold. THE Helena, from New Orleans, arrive yesterday with about 200 tons, and returned last night with 175 bales of cotton, 1000 sacks of oil meal and a lot of other freight Her officers are pleased with her movements The rumor that an opposition boat would be placed in the Arkansas City trade, with Mark Cheek in command and A. L. Com-mius in the office, falls flat in the face of the THE City of Baton Rouge, with 1900 too

and full of people, passed down for New Or-leans yesterday afternoon, discharging 170 packages and adding 125 tons for points be-low. She got 12,000 sacks of corn below THE Iron Duke, which passed here Satur ay evening with 6 barges loaded with perchandise and railway iron, for New Or-

A barge was secured here yesterday and taken down to the scene of New Oblians is making a desperate effort to secure the trade of Arkansas river. The Chamber of Commerce of that city held a meeting Friday night before which a committee made a report on the subject, from which we make the following romantic ex-cerpt: "When the Kountz made her appear ance in the Arkansas river, as a pioneer in the interests of New Orleans, she found Memphis naturally aroused over what was considered an invasion of her territory, and prepared at once to inaugurate cut-turost rates that would dishearten and demoralize the Koun'z and drive her out of this trade.

the Koun'z and drive her out of this trade. Several additional boats were placed on the river in the interest of Memphis, who offered to transport cotton from Little Rock, Dardanelle, Pine Biuff and other Arkaosas towns to Memphis, and thence tranship it to New Orleans, for \$1, and even 75 cents a bale—less than it could possibly be carried for—against the very low rate which the Koun'z was offering of \$1 50." The APPEAL has kept a correct record of steamers runhas kept a correct record of steamers run-ning up Arkaneas river the past year, and in that time we fail to discern that any other boat than those belonging regularly to the Memphis and Arkansas River Packet Line Memphis and Arkansas Kwer Packet Line has ever run up that stream. The balance of the report is off the same piece, the entirety of which makes as sick to read. But there seems to be no doubt but the enthusiasm of New Orleans merchanis' will result in a fat private subsidy for the Kountzowners, which will be blowed in, perhaps, by flytime. As Jackson said to Packenham, several years ago—"Come on, if you think there's no hell."

asbore. The bar was so steep, however, that the vessel slipped off and backed out into the river, where she sank to her hurricare roof. The captain, mate and engineer fell into the water, but were picked up by one of the boats." Pilot A. P. Bedman, of the Laura Lee, states: "We were coming down the river, and in our proper place. About 3:30 o'clock a.m., just below Bayon Goula, about half way between the two beacon lights, I sighted a boat coming up. I blew the whistle at the proper distance, and just as the other boat blew here. Seeing that I was not answered properly. I rang the bells to stop and back, and blew sgain. Still backing and after waiting for a response mud receiving none. I blew the distress whistle and gonged to back stronger. The City of Greenville, without answering either of my two whistles, flanked in against the Laura Lee, the Laura Lee striking the City of Greenville on the larboard quarter sbreast of the stage derrick. The City of Greenville rang her backing bells just before the two bosts came together, but the headway of the Laura Lee was entirely checked before they struck."

Laura Lee was entirely checked before the WEATHER AND RIVERS. OFFICE Signal Service, U. S. A... Feet. Inches. Inches. Inches
